

Find out why so many companies turn to Voltaix for their high purity gas needs. Voltaix - the first name in germane, high purity disilane, boron trifluoride, silicon tetrafluoride and a wide range of dopants, etchants, Zyron chamber cleaning gases (Zyron is a registered trademark of Dupont) and advanced chemicals for the semiconductor industry.

Get to know us better at www.voltaix.com or call today toll free 1-800-VOLTAIX.

Think of Voltaix first for methyl silanes, deuterium and deuterated gases including deuterated phosphine and silane, isotopically enriched gases including 11B boron trifluoride for ion implantation and 29Si-enriched silicon tetrafluoride for enhanced silicon ion current.
